Data & Statistics

Data and statistics collected from California schools and learning support resources to identify trends and educational needs and to measure performance.

DataQuest
Access a wide variety of data reports including school performance, test results, student and staff demographics, course enrollment, student misconduct/intervention, and more.

Schools and Districts
Information regarding county-district-school (CDS) code administration. Includes guidelines for applying for a new school or district, updating CDS information, and more.

Public Schools and Districts Data Files
Obtain a directory of California's public schools and districts, including general school and district information and contact information for superintendents and principals.

California Longitudinal Pupil Achievement Data System (CALPADS)
A data system used to maintain individual-level state and federal data including student/staff demographics, course enrollment/assignments, discipline, assessments, and more.

Data Resource Guide
A catalog of the Department's educational data collections and reports administered by the Department. This catalog does not contain the actual data, but is intended to provide a reference for those looking for data.

Ed-Data
Offers educators, policy makers, the Legislature, parents, and the public quick access to timely and comprehensive data about K-12 education in California.
